

## Certificate of Analysis

Customer Name:	BIOCOTE ON BEHALF OF VÄINÖ KORPINEN OY	Date Received:	18.05.2020
Customer Contact:	JENNIFER COLLIER	Date Analysed:	02.06.2020, 09.06.2020
Customer Email/Phone:	Jennifer.collier@biocote.com	Date Reported:	12.06.2020
Certificate Number:	BL033/2020		

 Tick box if customer has provided untreated control samples for inclusion in testing 

### Test Method: Determination of Antibacterial Activity using Test Based on MOD ISO 22196: 2011

BioLabTests Sample Reference Number	Sample	Test Bacteria	Contact Time*		Reduction against Initial	
			0 Hrs	24 Hrs	Log <sub>10</sub>	%
200/301	HANDCONTROL COVER. SANTOPRENE 8211-75 WITH B85003 AT 0.3%	MRSA	7.05x10 <sup>4</sup>	1.33x10 <sup>2</sup>	2.72	99.81%
		<i>E. coli</i>	2.62x10 <sup>4</sup>	≤100	≥2.42	≥99.62%

\*Numbers represent Colony Forming Units at representative contact times.

Data show the changes in size of the initial MRSA (ATCC® 43300™) and *E. coli* (ATCC®8739™) populations due to their contact with the treated surface of the samples. The samples detailed in this CoA were tested for 24 hours (±1) at 35°C (±2) under a relative humidity of >90% as specified in the ISO 22196 method. The results detailed in this CoA relate only to the items tested. This certificate shall not be reproduced except in full, without written approval of BioLabTests.

Please note; sample was received in a ready to test state from the customer apart from sterilisation which is noted below.  
 All testing is performed on site at the BioLabTests address above unless otherwise disclosed.

<b>Noted during testing</b>	
	<b>Note</b>
No. of samples supplied per test:	6 of 6 supplied
Sample size:	Average size: 5 x 5cm
Sample sterilisation method:	DRY HEAT 65°C
Film size:	Average size: 4 x 4cm
Inoculation volume:	Volume: MRSA 0.1ml, <i>E. coli</i> 0.05ml
Initial bacterial concentration:	MRSA: $7.05 \times 10^5$ CFU/ml <i>E. coli</i> : $5.25 \times 10^5$ CFU/ml

The material of the cover slips is polyethylene with a thickness of 0.045mm.

Please note – For all information regarding deviations from ISO 22196:2011, please request statement B-Lab-State-007
